Subject Index

Abscess
Hereditary hemorrhagic telangiectasia (Rendu-Osler-Weber disease) presenting with polymicrobial brain abscess. Case report, 294
Achondroplasia
Cervicomedullary compression in achondroplasia, 43
Acidosis
Early reversal of acidosis and metabolic recovery following ischemia, 567
Acivicin
Enzymatic barrier protects brain capillaries from leukotriene C_4, 745
Acromegaly
Treatment of invasive growth hormone pituitary adenomas with long-acting somatostatin analog SMS 201–995 before transsphenoidal surgery, 10
Adenoma, *see also* Pituitary adenoma
Adenosine
Effect of hypoglycemia on postischemic cortical blood flow, hypercapnic reactivity, and interstitial adenosine concentration, 877
American Association of Neurological Surgeons
Archival correspondence regarding the origin of the Harvey Cushing Society: the American Association of Neurological Surgeons, 950
Presidential address: toward better balance, 651
Amnesia
Traumatic brain injury enhances the amnesic effect of an NMDA antagonist in rats, 267
Amnion
Reversal of hemiparkinsonian syndrome in nonhuman primates by amnion implantation into caudate nucleus, 869
Amyloidoma
Bilateral trigeminal amyloidoma: an unusual case of trigeminal neuropathy with a review of the literature. Case report, 780
Anatomical study
The far lateral/combined supra- and infratentorial approach.
A human cadaveric prosection model for routes of access to the petroclival region and ventral brain stem, 60
The superior wall of the cavernous sinus: a microanatomical study, 914
Transcranial approach to the orbit: microsurgical anatomy, 78
Aneurysm, *see also* specific types
Basilar artery dissection: an early postoperative complication of aneurysm clipping. Case report, 139
Extradural temporopolar approach to lesions of the upper basilar artery and infrachiasmatic region, 230
Morbidity and mortality from elective surgery for asymptomatic unruptured, intracranial aneurysms: a meta-analysis, 837
Surgery for occult aneurysms. Letters, 158
Thalamostriate artery aneurysm within the third ventricle. Case report, 463
Aneurysm, giant
Combined surgical and endovascular treatment of a giant vertebral artery aneurysm in a child. Case report, 304
Giant aneurysm of anterior ethmoidal artery presenting with intracranial hemorrhage. Case report, 934
Giant posterior communicating artery aneurysm presenting as third ventricle mass with obstructive hydrocephalus. Case report, 299
Hunterian proximal arterial occlusion for giant aneurysms of the carotid circulation, 656
Angiogenesis
Vascular permeability factor in brain metastases: correlation with vasogenic brain edema and tumor angiogenesis, 560
Angiographically occult aneurysm
Surgery for occult aneurysms. Letters, 158
Anterior cervical fusion
Update on the Cloward procedure: new instruments, 716
Anterior communicating artery
Surgery for occult aneurysms. Letters, 158
Anterior ethmoidal artery
Giant aneurysm of anterior ethmoidal artery presenting with intracranial hemorrhage. Case report, 934
Aqueductal stenosis
Stenosis of the central canal of the spinal cord following inoculation of suckling hamsters with reovirus type I, 103
Arachnoid cyst
Hindbrain herniation: an unusual occurrence after shunting an intracranial arachnoid cyst. Case report, 126
Arnold-Chiari malformation
Hindbrain herniation: an unusual occurrence after shunting an intracranial arachnoid cyst. Case report, 126
Arterial occlusion
Cerebral damage caused by interrupted, repeated arterial occlusion versus uninterrupted occlusion in a focal ischemic model, 554
Arterioles
Effects of extravascular acidification and extravascular alkalinization on constriction and depolarization in rat cerebral arterioles *in vitro*, 437
Arteriovenous fistula
Intradural perimedullary arteriovenous fistulas (Type IV spinal cord arteriovenous malformations), 221
Arteriovenous malformation
Clinical and radiological evaluation of long-term results of stereotactic proton beam radiosurgery in patients with cerebral arteriovenous malformations, 683
Dural arteriovenous malformation of the skull base with intraosseous vascular nidus. Report of two cases, 620
Intracranial dural arteriovenous fistulae: angiographic predictors of intracranial hemorrhage and clinical outcome in nonsurgical patients, 531
Intradural perimedullary arteriovenous fistulas (Type IV spinal cord arteriovenous malformations), 221
Management of tentorial dural arteriovenous malformations: transarterial embolization combined with stereotactic radiation or surgery, 851
Primary empty sella in association with superior sagittal sinus thrombosis and dural arteriovenous malformation. Case report, 122
Artery, *see* specific arteries
Arthrodesis
Fracture of a sublaminar stainless steel cable in the upper cervical spine with neurological injury, 932
Arthroscopic discectomy
Arthroscopic discectomy. Letters, 639
Astrocytoma
Diffuse bilateral cerebral astrocytomas with atypical neuroimaging studies, 817
High-resolution ^{1}H-magnetic resonance spectroscopy of pediatric posterior fossa tumors *in vitro*, 443
Optic pathway glioma infiltrating into somatostatinergic pathways in a young boy with gigantism. Case report, 595
Autologous vein graft
Retroauricular subcutaneous Dacron tunnel for extracranial-intracranial autologous vein graft bypass, 800
Autoradiography
Progressive perturbations in cerebral energy metabolism after experimental whole-brain radiation in the therapeutic range, 774

Index

Axis
Fractures of the C-2 vertebral body, 206

Basilar artery
Microvascular decompression for trigeminal neuralgia caused by vertebrobasilar compression, 1
Behavioral disorder
Influence of major depression on 1-year outcome in patients with traumatic brain injury, 726
Biopsy
Complications of CT-guided stereotactic biopsy of intra-axial brain lesions, 165
Blindness
Rotational vertebrobasilar insufficiency as a component of thoracic outlet syndrome resulting in transient blindness. Case report, 617
Blood-brain barrier
Enzymatic barrier protects brain capillaries from leukotriene C_4, 745
Experimental intracerebral hemorrhage: relationship between brain edema, blood flow, and blood-brain barrier permeability in rats, 93
Intracarotid infusion of RMP-7, a bradykinin analog: a method for selective drug delivery to brain tumors, 752

BQ-123
Prevention of delayed vasospasm by an endothelin ET_A receptor antagonist, BQ-123: change of ET_A receptor mRNA expression in a canine subarachnoid hemorrhage model, 759
Brachial plexus
Brachial plexus repair by peripheral nerve grafts directly into the spinal cord in rats.
Behavioral and anatomical evidence of functional recovery, 107
Bradykinin
Intracarotid infusion of RMP-7, a bradykinin analog: a method for selective drug delivery to brain tumors, 752
Brain abscess
Coccidioidomycosis brain abscess. Case report, 614
Brain injury, *see also* Head injury
Traumatic brain injury enhances the amnesic effect of an NMDA antagonist in rats, 267
Brain neoplasm
Complications of CT-guided stereotactic biopsy of intra-axial brain lesions, 165
Diffuse bilateral cerebral astrocytomas with atypical neuroimaging studies, 817
High-resolution ^{1}H-magnetic resonance spectroscopy of pediatric posterior fossa tumors *in vitro,* 443
Outcome for children with medulloblastoma treated with radiation and cisplatin, CCNU, and vincristine chemotherapy, 690
Production of matrix metalloproteinases and tissue inhibitor of metalloproteinases-1 by human brain tumors, 69
Stereotactically guided transfrontal removal of intraventricular midline tumors in children. Neurosurgical and neuropsychological considerations, 374
Subcellular boron-10 localization in glioblastoma for boron neutron capture therapy with $Na_2B_{12}H_{11}SH$, 741
Vascular permeability factor in brain metastases: correlation with vasogenic brain edema and tumor angiogenesis, 560
Brain stem
Intraoperative SEP monitoring in neurosurgery around the brain stem and cervical spinal cord: differential recording of subcortical components, 213
Brain-stem tumor
Benign pontine tumors. Letters, 335
Bromodeoxyuridine
Meningiomas: genetics, malignancy, and the role of radiation in induction and treatment. The Richard C. Schneider Lecture, 666
Bypass procedure
Cerebral circulation and oxygen metabolism in childhood moyamoya disease: a perioperative positron emission tomography study, 843
Hunterian proximal arterial occlusion for giant aneurysms of the carotid circulation, 656

Cable
Fracture of a sublaminar stainless steel cable in the upper cervical spine with neurological injury, 932
Calcium
Analysis of intra- and intercellular calcium signaling in a mouse malignant glioma cell line, 420
Callosotomy
Callosotomy without disconnection. Letters, 328

Carotid artery
Infiltration of the carotid artery by cavernous sinus meningioma, 252
Outcome of aggressive removal of cavernous sinus meningiomas, 245
The superior wall of the cavernous sinus: a microanatomical study, 914
Carotid artery occlusion
Hunterian proximal arterial occlusion for giant aneurysms of the carotid circulation, 656
Prediction of tolerance to carotid artery occlusion using transcranial Doppler ultrasound, 15
Carotid-cavernous fistula
Transethmoidal transsphenoidal approach for embolization of carotid-cavernous fistula. Case report, 921
Cauda equina syndrome
Hemorrhage into a lumbar synovial cyst causing an acute cauda equina syndrome. Case report, 449
Cavernous sinus
Infiltration of the carotid artery by cavernous sinus meningioma, 252
Outcome of aggressive removal of cavernous sinus meningiomas, 245
The superior wall of the cavernous sinus: a microanatomical study, 914
Cell culture
Platelet-derived growth factor expression and stimulation in human meningiomas, 388
Cell kinetics
Meningiomas: genetics, malignancy, and the role of radiation in induction and treatment. The Richard C. Schneider Lecture, 666
Cell-suspension graft
Vascularization and microvascular permeability in solid versus cell-suspension embryonic neural grafts, 272
Cellular interaction
In vitro studies of cytokine-mediated interactions between malignant glioma and autologous peripheral blood mononuclear cells, 579
Central canal
Stenosis of the central canal of the spinal cord following inoculation of suckling hamsters with reovirus type I, 103
Central nervous system
Cerebral tuberculosis with expansion into brainstem tuberculoma. Report of two cases, 927
Preirradiation methotrexate chemotherapy of primary central nervous system lymphoma: long-term outcome, 188
Central nervous system tumor
Intracranial infantile myofibromatosis, 539
Cephalocele
Endoscopic treatment of an oral cephalocele. Case report, 308
Cerebral blood flow
Cerebral circulation and oxygen metabolism in childhood moyamoya disease: a perioperative positron emission tomography study, 843
Effect of hypoglycemia on postischemic cortical blood flow, hypercapnic reactivity, and interstitial adenosine concentration, 877
Effect of stable xenon inhalation on intracranial pressure during measurement of cerebral blood flow in head injury, 822
Effects of extravascular acidification and extravascular alkalinization on constriction and depolarization in rat cerebral arterioles *in vitro*, 437
Effects of head elevation on intracranial hemodynamics in patients with ventriculoperitoneal shunts, 829
Experimental intracerebral hemorrhage: relationship between brain edema, blood flow, and blood-brain barrier permeability in rats, 93
Cerebral infarction
Indolent granulomatous angiitis. Case report, 472
Cerebral metabolism
Effect of stable xenon inhalation on intracranial pressure during measurement of cerebral blood flow in head injury, 822
Cerebral palsy
An experimental study of reflex variability in selective dorsal rhizotomy, 885
The validity of electrophysiological criteria used in selective functional posterior rhizotomy for treatment of spastic cerebral palsy, 354
Cerebral perfusion pressure
Effects of head elevation on intracranial hemodynamics in patients with ventriculoperitoneal shunts, 829
Cerebral vasculitis
Indolent granulomatous angiitis. Case report, 472
Cerebral vasospasm
Prevention of delayed vasospasm by an endothelin ET_A receptor antagonist, BQ-123: change of ET_A receptor mRNA expression in a canine subarachnoid hemorrhage model, 759
Cerebrospinal fluid
Communicating syringomyelia. Letters, 500
Cerebrospinal fluid edema
Cerebrospinal fluid edema associated with shunt obstruction, 179
Cerebrovascular reserve capacity
Improvement of cerebrovascular reserve capacity by EC-IC arterial bypass surgery in patients with ICA occlusion and hemodynamic cerebral ischemia, 236
Cervical spine
Intraoperative SEP monitoring in neurosurgery around the brain stem and cervical spinal cord: differential recording of subcortical components, 213
Posterior plates in the management of cervical instability: long-term results in 44 patients, 341
Cervical spine fracture
Fractures of the C-2 vertebral body, 206
Cervical vertebra
Anterior cervical fusion. Letters, 807
Cervicomedullary junction
Cervicomedullary compression in achondroplasia, 43
Chemotherapy
Necrosis in a meningioma following systemic chemotherapy. Case report, 284
Outcome for children with medulloblastoma treated with radiation and cisplatin, CCNU, and vincristine chemotherapy, 690
Preirradiation methotrexate chemotherapy of primary central nervous system lymphoma: long-term outcome, 188
Chiari I malformation
Chiari I and syringomyelia. Letters, 811
Communicating syringomyelia. Letters, 500
Delayed postoperative tethering of the cervical spinal cord, 196
Children
Cerebral circulation and oxygen metabolism in childhood moyamoya disease: a perioperative positron emission tomography study, 843
Chordoma
Hypothalamic chordoma. Case report, 130
Choristoma
Choristoma of the intracranial maxillary nerve in a child. Case report, 788
Circulatory arrest
Oxygen metabolism during circulatory arrest. Letters, 330
Climate
Seasonal fluctuation in the incidence of intracranial aneurysm rupture and its relationship to changing climatic conditions, 525
Clip
Titanium dural clip testing, 947
Clip applier
Right-angle partially compressible hemostatic clip applier. Technical note, 799
Coccidioidomycosis
Coccidioidomycosis brain abscess. Case report, 614
Colloid cyst
Surgical resection of third ventricle colloid cysts. Preliminary results comparing transcallosal microsurgery with endoscopy, 174
Commemorative article
The binding influence of the *Journal of Neurosurgery* on the evolution of neurosurgery, 317
Comments for the 50th anniversary of the *Journal of Neurosurgery*. First series, 634

Index

Comments for the 50th anniversary of the *Journal of Neurosurgery*. Final series, 803
The *Journal of Neurosurgery* in the computer era, 147
The physiological basis of concussion: 50 years later, 493
Complication
Basilar artery dissection: an early postoperative complication of aneurysm clipping. Case report, 139
Complications of CT-guided stereotactic biopsy of intra-axial brain lesions, 165
CO_2 reactivity
Doppler analysis of CO_2 reactivity. Letters, 808
Effect of hypoglycemia on postischemic cortical blood flow, hypercapnic reactivity, and interstitial adenosine concentration, 877
Corpus callosum
Stereotactically guided transfrontal removal of intraventricular midline tumors in children. Neurosurgical and neuropsychological considerations, 374
Correction
Correction: cervical subdural empyema. Letter, 160
Correction: treatment of high-dose intrathecal morphine overdose. Letter, 813
Cowden's syndrome
Lhermitte-Duclos disease and Cowden's syndrome in an adolescent patient. Case report, 133
Cranial base tumor
Extradural temporopolar approach to lesions of the upper basilar artery and infrachiasmatic region, 230
Cranial nerves
The superior wall of the cavernous sinus: a microanatomical study, 914
Cranioplasty
Cranioplasty with a Medpor porous polyethylene Flexblock implant. Technical note, 483
Cryptic vascular malformation
Progression of multiple cryptic vascular malformations associated with anomalous venous drainage. Case report, 477
Cushing, Harvey
Archival correspondence regarding the origin of the Harvey Cushing Society: the American Association of Neurological Surgeons, 950
Cystoperitoneal shunt
Hindbrain herniation: an unusual occurrence after shunting an intracranial arachnoid cyst. Case report, 126
Cytotoxicity
Antiglioma cytotoxic immune response. Letters, 334
Cytotoxic effects of bloody cerebrospinal fluid on cerebral endothelial cells in culture, 87

D dimer
Characterization of local hyperfibrinolysis in chronic subdural hematomas by SDS-PAGE and immunoblot, 910
Dacron graft
Retroauricular subcutaneous Dacron tunnel for extracranial-intracranial autologous vein graft bypass, 800
Dentate nucleus
Postoperative mutism in neurosurgery. Report of two cases, 115
Depression
Influence of major depression on 1-year outcome in patients with traumatic brain injury, 726
Diabetic coma
Acute obstructive hydrocephalus due to brain-stem edema caused by hyperosmotic insult. Case report, 627
Differential diagnosis
Primary eosinophilic granuloma of the oculomotor nerve. Case report, 784
Shunt failure without ventriculomegaly proclaimed by ophthalmic findings, 721
Dopamine
Reversal of hemiparkinsonian syndrome in nonhuman primates by amnion implantation into caudate nucleus, 869
Doppler ultrasound
Doppler analysis of CO_2 reactivity. Letters, 808
Doppler ultrasound prediction of ischemic deficit. Letters, 502
Drug delivery
Treatment of high-dose intrathecal morphine overdose. Case report, 143
Drug resistance
Reversal of chemoresistance in malignant gliomas by calcium antagonists: correlation with the expression of multidrug-resistant p-glycoprotein, 587
Dural closure
Titanium dural clip testing, 947
Dural graft
Immune response in hosts with cadaveric dural grafts. Report of two cases, 610
Dysraphism
Terminal syringohydromyelia and occult spinal dysraphism, 513

EC-IC bypass
Retroauricular subcutaneous Dacron tunnel for extracranial-intracranial vein graft bypass, 800
Edema
Acute obstructive hydrocephalus due to brain-stem edema caused by hyperosmotic insult. Case report, 627
Experimental intracerebral hemorrhage: relationship between brain edema, blood flow, and blood-brain barrier permeability in rats, 93
Frontal sagittal meningioma: a tumor parasitization of cortical vasculature as the etiology of peritumoral edema. Case report, 924
Embolization
Management of tentorial dural arteriovenous malformations: transarterial embolization combined with stereotactic radiation or surgery, 851
Transethmoidal transsphenoidal approach for embolization of carotid-cavernous fistula. Case report, 921
Embryology
The "filum intermedium" sign: focal *in utero* spinal cord infarct and an extraspinal thecal sac. Case report, 941
Empty sella
Primary empty sella in association with superior sagittal sinus thrombosis and dural arteriovenous malformation. Case report, 122
Endoscopic monitoring
Doppler and endoscopic stereotactic biopsy. Letters, 641
Endoscopy
Endoscopic discectomy. Letters, 965
Surgical resection of third ventricle colloid cysts. Preliminary results comparing transcallosal microsurgery with endoscopy, 174
Endothelial cell
Cytotoxic effects of bloody cerebrospinal fluid on cerebral endothelial cells in culture, 87
Vascular permeability factor in brain metastases: correlation with vasogenic brain edema and tumor angiogenesis, 560
Endothelial injury
Acute obstructive hydrocephalus due to brain-stem edema caused by hyperosmotic insult. Case report, 627
Endothelin receptor
Prevention of delayed vasospasm by an endothelin ET_A receptor antagonist, BQ-123: change of ET_A receptor mRNA expression in a canine subarachnoid hemorrhage model, 759
Endovascular occlusion
Combined surgical and endovascular treatment of a giant vertebral artery aneurysm in a child. Case report, 304
Enzymatic barrier
Enzymatic barrier protects brain capillaries from leukotriene C_4, 745
Eosinophilic granuloma
Primary eosinophilic granuloma of the oculomotor nerve. Case report, 784
Ependymitis
Stenosis of the central canal of the spinal cord following inoculation of suckling hamsters with reovirus type I, 103
Ependymoma
Primary ependymoma of a cranial nerve. Case report, 792

Epidermal growth factor
Effect of tyrphostin on cell growth and tyrosine kinase activity of epidermal growth factor receptor in human gliomas, 411
Epidermal growth factor receptor
Pathways leading to glioblastoma multiforme: a molecular analysis of genetic alterations in 65 astrocytic tumors, 427
Epilepsy, *see also* Seizure
Frameless stereotaxy for surgery of the epilepsies: preliminary experience. Technical note, 629
Reoperation for recurrent temporal lobe epilepsy, 31
Estrogen receptor
Quantitative imaging of estrogen and progesterone receptors, estrogen-regulated protein, and growth fraction: immunocytochemical assays in 52 meningiomas. Correlation with clinical and morphological data, 765
Excision
Intracranial infantile myofibromatosis, 539
Extracerebral fluid collection
Extracerebral fluid collections in infancy: role of magnetic resonance imaging in differentiation between subdural effusion and subarachnoid space enlargement, 20
Extracranial-intracranial bypass surgery
Improvement of cerebrovascular reserve capacity by EC-IC arterial bypass surgery in patients with ICA occlusion and hemodynamic cerebral ischemia, 236
Retroauricular subcutaneous Dacron tunnel for extracranial-intracranial autologous vein graft bypass, 800
Extradural temporopolar approach
Extradural temporopolar approach to lesions of the upper basilar artery and infrachiasmatic region, 230

Familial occurrence
Subependymoma in siblings. Letters, 961
^{18}F-fluorodeoxyglucose
Blood flow and glucose metabolism. Letters, 644
Fibrin/fibrinogen degradation products
Characterization of local hyperfibrinolysis in chronic subdural hematomas by SDS-PAGE and immunoblot, 910
Fibrinolytic enzymes
Plasminogen activator inhibitor-1 in the pathogenesis of delayed radiation damage in rat spinal cord *in vivo*, 381
Filum terminale
Terminal syringohydromyelia and occult spinal dysraphism, 513
Fluid-percussion injury
Traumatic brain injury enhances the amnesic effect of an NMDA antagonist in rats, 267
Fourth ventricle
Sequestered fourth ventricle. Letters, 962
Sialorrhea from fourth ventricle hydrocephalus. Case report, 297

Ganciclovir
The effect of thymidine kinase transduction and ganciclovir therapy on tumor vasculature and growth of 9L gliomas in rats, 256
Gender
Seasonal fluctuation in the incidence of intracranial aneurysm rupture and its relationship to changing climatic conditions, 525
Gene amplification
Pathways leading to glioblastoma multiforme: a molecular analysis of genetic alterations in 65 astrocytic tumors, 427
Gene therapy
The effect of thymidine kinase transduction and ganciclovir therapy on tumor vasculature and growth of 9L gliomas in rats, 256
Germ-cell tumor
Precocious puberty in a girl with an hCG-secreting suprasellar immature teratoma. Case report, 601
Gigantism
Optic pathway glioma infiltrating into somatostatinergic pathways in a young boy with gigantism. Case report, 595

Glioblastoma
Reversal of chemoresistance in malignant gliomas by calcium antagonists: correlation with the expression of multidrug-resistant p-glycoprotein, 587
Subcellular boron-10 localization in glioblastoma for boron neutron capture therapy with $Na_2B_{12}H_{11}SH$, 741
Glioblastoma multiforme
The identification of four protein kinase C isoforms in human glioblastoma cell lines: PKC alpha, gamma, epsilon, and zeta, 734
Pathways leading to glioblastoma multiforme: a molecular analysis of genetic alterations in 65 astrocytic tumors, 427
Quantitative immunohistological analysis of the microvasculature in untreated human glioblastoma multiforme. Computer-assisted image analysis of whole-tumor sections, 902
Glioma
Analysis of intra- and intercellular calcium signaling in a mouse malignant glioma cell line, 420
Effect of tyrphostin on cell growth and tyrosine kinase activity of epidermal growth factor receptor in human gliomas, 411
Growth suppression and astrocytic differentiation of glioma cells by interleukin-1, 402
Intracarotid infusion of RMP-7, a bradykinin analog: a method for selective drug delivery to brain tumors, 752
In vitro studies of cytokine-mediated interactions between malignant glioma and autologous peripheral blood mononuclear cells, 579
Optic pathway glioma infiltrating into somatostatinergic pathways in a young boy with gigantism. Case report, 595
p-Glycoprotein
Reversal of chemoresistance in malignant gliomas by calcium antagonists: correlation with the expression of multidrug-resistant p-glycoprotein, 587
Gorlin's syndrome
Malignant meningioma in Gorlin's syndrome: cytogenetic and p53 gene analysis. Case report, 466
Granular-cell tumor
Cranial granular-cell tumor of the trigeminal nerve. Case report, 795
Granulomatous angiitis
Indolent granulomatous angiitis. Case report, 472
Growth factor
Secretion of interleukin-6 by human meningioma cells: possible autocrine inhibitory regulation of neoplastic cell growth, 394
Growth fraction
Quantitative imaging of estrogen and progesterone receptors, estrogen-regulated protein, and growth fraction: immunocytochemical assays in 52 meningiomas. Correlation with clinical and morphological data, 765

Hamartoma
Lhermitte-Duclos disease and Cowden's syndrome in an adolescent patient. Case report, 133
Hangman's fracture
Fractures of the C-2 vertebral body, 206
Head injury, *see also* Brain injury
Does CVP influence ICP after brain injury? Letters, 963
High cervical pain and impairment of skull mobility as the only symptoms of an occipital condyle fracture. Case report, 137
Intracranial pressure monitoring. Letters, 329
Temporal profile of outcomes in severe head injury, 169
Hemangioblastoma
Intramedullary hemorrhage of spinal cord hemangioblastoma. Report of two cases, 937
Hematoma, *see also* specific types
Hematoma enlargement in intracerebral hemorrhage. Letters, 333
Hemimegaloencephaly
The role of hemispherectomy in the treatment of holohemispheric hemimegaloencephaly, 37
Hemispherectomy
The role of hemispherectomy in the treatment of holohemispheric hemimegaloencephaly, 37

Index

Hemoglobin
Hemoglobin augmentation of interleukin-1β-induced production of nitric oxide in smooth-muscle cells, 895
Hemolysate
The role of hemolysate in the facilitation of oxyhemoglobin-induced contraction in rabbit basilar arteries, 261
Hemostasis
Right-angle partially compressible hemostatic clip applier. Technical note, 799
Herniated disc
Herniated lumbar disc. Letters, 806
Heterozygosity
Pathways leading to glioblastoma multiforme: a molecular analysis of genetic alterations in 65 astrocytic tumors, 427
Histiocytosis
Primary eosinophilic granuloma of the oculomotor nerve. Case report, 784
History of neurosurgery
Archival correspondence regarding the origin of the Harvey Cushing Society: the American Association of Neurological Surgeons, 950
Comments for the 50th anniversary of the *Journal of Neurosurgery*. First series, 634
Comments for the 50th anniversary of the *Journal of Neurosurgery*. Final series, 803
Hans Sølling: Danish pioneer neurosurgeon, 487
Hormone receptor
Hormone receptors in initially excised versus recurrent intracranial meningiomas, 184
Human chorionic gonadotropin
Precocious puberty in a girl with an hCG-secreting suprasellar immature teratoma. Case report, 601
Hydrocephalus
Acute obstructive hydrocephalus due to brain-stem edema caused by hyperosmotic insult. Case report, 627
Cerebrospinal fluid edema associated with shunt obstruction, 179
Effects of head elevation on intracranial hemodynamics in patients with ventriculoperitoneal shunts, 829
Giant posterior communicating artery aneurysm presenting as third ventricle mass with obstructive hydrocephalus. Case report, 299
High-energy phosphate metabolism in a neonatal model of hydrocephalus before and after shunting, 544
Sialorrhea from fourth ventricle hydrocephalus. Case report, 297
Hyperglycemia
Early reversal of acidosis and metabolic recovery following ischemia, 567
Hypertension
Intracranial pressure and computerized tomography. Letters, 810
Hyperventilation
Effect of stable xenon inhalation on intracranial pressure during measurement of cerebral blood flow in head injury, 822
Hypoglycemia
Effect of hypoglycemia on postischemic cortical blood flow, hypercapnic reactivity, and interstitial adenosine concentration, 877
Hypoperfusion
Effect of hypoglycemia on postischemic cortical blood flow, hypercapnic reactivity, and interstitial adenosine concentration, 877
Hypothalamus
Hypothalamic chordoma. Case report, 130

Ilium
Sacral fixation using iliac instrumentation and a variable-angle screw device. Technical note, 313
Immune response
Immune response in hosts with cadaveric dural grafts. Report of two cases, 610
Immunohistochemistry
Quantitative immunohistological analysis of the microvasculature in untreated human glioblastoma multiforme. Computer-assisted image analysis of whole tumor sections, 902
Immunology
In vitro studies of cytokine-mediated interactions between malignant glioma and autologous peripheral blood mononuclear cells, 579
Immunotherapy
Antiglioma cytotoxic immune response. Letters, 334
Instrumentation
Posterior plates in the management of cervical instability: long-term results in 44 patients, 341
Right-angle partially compressible hemostatic clip applier. Technical note, 799
Interleukin-1
Growth suppression and astrocytic differentiation of glioma cells by interleukin-1, 402
Interleukin-1β
Hemoglobin augmentation of interleukin-1β-induced production of nitric oxide in smooth-muscle cells, 895
Interleukin-6
Secretion of interleukin-6 by human meningioma cells: possible autocrine inhibitory regulation of neoplastic cell growth, 394
Internal carotid artery occlusion
Improvement of cerebrovascular reserve capacity by EC-IC arterial bypass surgery in patients with ICA occlusion and hemodynamic cerebral ischemia, 236
Intracerebral hemorrhage
Experimental intracerebral hemorrhage: relationship between brain edema, blood flow, and blood-brain barrier permeability in rats, 93
Hematoma enlargement in intracerebral hemorrhage. Letters, 333
Intracranial aneurysm
Cerebral damage caused by interrupted, repeated arterial occlusion versus uninterrupted occlusion in a focal ischemic model, 554
Seasonal fluctuation in the incidence of intracranial aneurysm rupture and its relationship to changing climatic conditions, 525
Intracranial fistula
Intracranial dural arteriovenous fistulae: angiographic predictors of intracranial hemorrhage and clinical outcome in nonsurgical patients, 531
Intracranial hemorrhage
Intracranial dural arteriovenous fistulae: angiographic predictors of intracranial hemorrhage and clinical outcome in nonsurgical patients, 531
Intracranial localization
Preliminary experience using an optimized three-point transformation algorithm for spatial registration of coordinate systems: a method of noninvasive localization using frame-based stereotactic guidance systems, 676
Intracranial pressure
Does CVP influence ICP after brain injury? Letters, 963
Intracranial pressure and CT. Letters, 810
Intracranial pressure monitoring. Letters, 329
Primary empty sella in association with superior sagittal sinus thrombosis and dural arteriovenous malformation. Case report, 122
Intradiscal pressure
Effects of vertebral axial decompression on intradiscal pressure, 350
Intramedullary hemorrhage
Intramedullary hemorrhage of spinal cord hemangioblastoma. Report of two cases, 937
Intraoperative angiography
Intraoperative angiography. Letters, 335
Intraoperative monitoring
Intraoperative SEP monitoring in neurosurgery around the brain stem and cervical spinal cord: differential recording of subcortical components, 213
Intraosseous nidus
Dural arteriovenous malformation of the skull base with intraosseous vascular nidus. Report of two cases, 620
Invertebral disc herniation
Pneumatic nerve root compression: epidural gas in association with lateral disc herniation. Report of two cases, 453
Ischemia
Cerebral damage caused by interrupted, repeated arterial occlusion versus uninterrupted occlusion in a focal ischemic model, 554
Doppler ultrasound prediction of ischemic deficit. Letters, 502

Early reversal of acidosis and metabolic recovery following ischemia, 567
Effect of hypoglycemia on postischemic cortical blood flow, hypercapnic reactivity, and interstitial adenosine concentration, 877
Improvement of cerebrovascular reserve capacity by EC-IC arterial bypass surgery in patients with ICA occlusion and hemodynamic cerebral ischemia, 236

Journal of Neurosurgery
The binding influence of the *Journal of Neurosurgery* on the evolution of neurosurgery, 317
Comments for the 50th anniversary of the *Journal of Neurosurgery*. First series, 634
Comments for the 50th anniversary of the *Journal of Neurosurgery*. Final series, 803
The *Journal of Neurosurgery* in the computer era, 147
The physiological basis of concussion: 50 years later, 493
Juvenile pilocytic astrocytoma
Treatment options and prognosis for multicentric juvenile pilocytic astrocytoma, 24

Laminectomy
Outcome after laminectomy for lumbar spinal stenosis. Part I: Clinical correlations, 699
Outcome after laminectomy for lumbar spinal stenosis. Part II: Radiographic changes and clinical correlations, 707
Laser
Subcellular boron-10 localization in glioblastoma for boron neutron capture therapy with $Na_2B_{12}H_{11}SH$, 741
Lateral extracavitary approach
Posterolateral approach to intradural extramedullary thoracic tumors, 202
Lateral parascapular extrapleural approach
Posterolateral approach to intradural extramedullary thoracic tumors, 202
Lhermitte-Duclos disease
Lhermitte-Duclos disease and Cowden's syndrome in an adolescent patient. Case report, 133
Low-back pain
Effects of vertebral axial decompression on intradiscal pressure, 350
Outcome after laminectomy for lumbar spinal stenosis. Part I: Clinical correlations, 699
Lumbar spine
Hemorrhage into a lumbar synovial cyst causing an acute cauda equina syndrome. Case report, 449
Outcome after laminectomy for lumbar spinal stenosis. Part I: Clinical correlations, 699
Outcome after laminectomy for lumbar spinal stenosis. Part II: Radiographic changes and clinical correlations, 707
Pneumatic nerve root compression: epidural gas in association with lateral disc herniation. Report of two cases, 453
Lumbar vertebra
Herniated lumbar disc. Letters, 806
Lymphoma
Preirradiation methotrexate chemotherapy of primary central nervous system lymphoma: long-term outcome, 188

Magnetic resonance imaging
Extracerebral fluid collections in infancy: role of magnetic resonance imaging in differentiation between subdural effusion and subarachnoid space enlargement, 20
Magnetic resonance spectroscopy
High-energy phosphate metabolism in a neonatal model of hydrocephalus before and after shunting, 544
High-resolution ^{1}H-magnetic resonance spectroscopy of pediatric posterior fossa tumors *in vitro*, 443
Matrix metalloproteinase
Production of matrix metalloproteinases and tissue inhibitor of metalloproteinases-1 by human brain tumors, 69
Maxillary nerve tumor
Choristoma of the intracranial maxillary nerve in a child. Case report, 788
Medulloblastoma
High-resolution ^{1}H-magnetic resonance spectroscopy of pediatric posterior fossa tumors *in vitro*, 443
Malignant meningioma in Gorlin's syndrome: cytogenetic and p53 gene analysis. Case report, 466
Outcome for children with medulloblastoma treated with radiation and cisplatin, CCNU, and vincristine chemotherapy, 690
Membrane potential
Effects of extravascular acidification and extravascular alkalinization on constriction and depolarization in rat cerebral arterioles *in vitro*, 437
Meningeal vein
Obstruction of the superior sagittal sinus caused by parasagittal meningiomas: the role of collateral venous pathways, 520
Meningioma
Frontal sagittal meningioma: a tumor parasitization of cortical vasculature as the etiology of peritumoral edema. Case report, 924
Hormone receptors in initially excised versus recurrent intracranial meningiomas, 184
Infiltration of the carotid artery by cavernous sinus meningioma, 252
Malignant meningioma in Gorlin's syndrome: cytogenetic and p53 gene analysis. Case report, 466
Meningiomas: genetics, malignancy, and the role of radiation in induction and treatment. The Richard C. Schneider Lecture, 666
Necrosis in a meningioma following systemic chemotherapy. Case report, 284
Obstruction of the superior sagittal sinus caused by parasagittal meningiomas: the role of collateral venous pathways, 520
Outcome of aggressive removal of cavernous sinus meningiomas, 245
Platelet-derived growth factor expression and stimulation in human meningiomas, 388
Quantitative imaging of estrogen and progesterone receptors, estrogen-regulated protein, and growth fraction: immunocytochemical assays in 52 meningiomas. Correlation with clinical and morphological data, 765
Secretion of interleukin-6 by human meningioma cells: possible autocrine inhibitory regulation of neoplastic cell growth, 394
Surgical excision of meningiomas involving the clivus: preoperative and intraoperative features as predictors of postoperative functional deterioration, 860
Meningocele
Endoscopic treatment of an oral cephalocele. Case report, 308
Meta-analysis
Morbidity and mortality from elective surgery for asymptomatic unruptured, intracranial aneurysms: a meta-analysis, 837
Metabolism
High-energy phosphate metabolism in a neonatal model of hydrocephalus before and after shunting, 544
Metastasis
Multiple dural metastases from a pituitary adenoma. Case report, 624
Treatment options and prognosis for multicentric juvenile pilocytic astrocytoma, 24
Vascular permeability factor in brain metastases: correlation with vasogenic brain edema and tumor angiogenesis, 560
Methotrexate
Preirradiation methotrexate chemotherapy of primary central nervous system lymphoma: long-term outcome, 188
Microsurgical discectomy
Endoscopic discectomy. Letters, 965
Microvascular decompression
Microvascular decompression for trigeminal neuralgia caused by vertebrobasilar compression, 1
Microvascular permeability
Vascularization and microvascular permeability in solid versus cell-suspension embryonic neural grafts, 272
Middle cerebral artery
Prediction of tolerance to carotid artery occlusion using transcranial Doppler ultrasound, 15

Index

Morphine overdose
Treatment of high-dose intrathecal morphine overdose. Case report, 143
Moyamoya disease
Cerebral circulation and oxygen metabolism in childhood moyamoya disease: a perioperative positron emission tomography study, 843
Mutism
Postoperative mutism in neurosurgery. Report of two cases, 115
Myofibromatosis
Intracranial infantile myofibromatosis, 539

Naloxone
Treatment of high-dose intrathecal morphine overdose. Case report, 143
Neoplasm, *see* Tumor
Neovascularization
Quantitative immunohistological analysis of the microvasculature in untreated human glioblastoma multiforme. Computer-assisted image analysis of whole-tumor sections, 902
Nerve, *see* specific nerves
Nerve regeneration
Brachial plexus repair by peripheral nerve grafts directly into the spinal cord in rats. Behavioral and anatomical evidence of functional recovery, 107
Nerve repair
Brachial plexus repair by peripheral nerve grafts directly into the spinal cord in rats. Behavioral and anatomical evidence of functional recovery, 107
Nerve root compression
Pneumatic nerve root compression: epidural gas in association with lateral disc herniation. Report of two cases, 453
Neural crest
The "filum intermedium" sign: focal *in utero* spinal cord infarct and an extraspinal thecal sac. Case report, 941
Neural sheath
Neural sheath tumors of major nerves, 362
Neural tissue graft
Vascularization and microvascular permeability in solid versus cell-suspension embryonic neural grafts, 272
Neural tube
The "filum intermedium" sign: focal *in utero* spinal cord infarct and an extraspinal thecal sac. Case report, 941
Neurocytoma
Central neurocytomas of the cervical spinal cord. Report of two cases, 288
Neurofibroma
Neural sheath tumors of major nerves, 362
Neurofibromatosis
Neural sheath tumors of major nerves, 362
Neuroimaging
Diffuse bilateral cerebral astrocytomas with atypical neuroimaging studies, 817
Neuropsychological outcome
Stereotactically guided transfrontal removal of intraventricular midline tumors in children. Neurosurgical and neuropsychological considerations, 374
Neurosurgical education
Neurosurgical education. Letters, 643
Neurosurgical history. *see also* Historical vignette *and* Commemorative article
Archival correspondence regarding the origin of the Harvey Cushing Society: the American Association of Neurological Surgeons, 950
Hans Sølling: Danish pioneer neurosurgeon, 487
The physiological basis of concussion: 50 years later, 493
Presidential address: toward better balance, 651

Nitric oxide
Hemoglobin augmentation of interleukin-1β-induced production of nitric oxide in smooth-muscle cells, 895

Occipital condyle fracture
High cervical pain and impairment of skull mobility as the only symptoms of an occipital condyle fracture. Case report, 137
Oculomotor nerve
Primary eosinophilic granuloma of the oculomotor nerve. Case report, 784
Odontoid
Fractures of the C-2 vertebral body, 206
Operative approach
Frameless stereotaxy for surgery of the epilepsies: preliminary experience. Technical note, 629
Operative technique. *see also* Surgical approach
Extreme lateral transcondylar approach: technical improvements and lessons learned, 49
Supraorbital craniotomy. Letters, 641
Optic chiasm
Reversible visual deficit following debulking of a Rathke's cleft cyst: a tethered chiasm? Case report, 459
Optic nerve
Transcranial approach to the orbit: microsurgical anatomy, 78
Optic pathway
Optic pathway glioma infiltrating into somatostatinergic pathways in a young boy with gigantism. Case report, 595
Orbit
Transcranial approach to the orbit: microsurgical anatomy, 78
Orbital plate
Supraorbital craniotomy. Letters, 642
Outcome
Glucose level and outcome after SAH. Letters, 961
Morbidity and mortality from elective surgery for asymptomatic unruptured, intracranial aneurysms: a meta-analysis, 837
Multiple dural metastases from a pituitary adenoma. Case report, 624
Surgical excision of meningiomas involving the clivus: preoperative and intraoperative features as predictors of postoperative functional deterioration, 860
Temporal profile of outcomes in severe head injury, 169
Oxygen saturation
Oxygen metabolism during circulatory arrest. Letters, 330
Oxyhemoglobin
The role of hemolysate in the facilitation of oxyhemoglobin-induced contraction in rabbit basilar arteries, 261

Papaverine
The effects of papaverine on phorbol dibutyrate-induced vasoconstriction in brain slice microvessels, 574
Parkinson's disease
Reversal of hemiparkinsonian syndrome in nonhuman primates by amnion implantation into caudate nucleus, 869
Pedicle
Fractures of the C-2 vertebral body, 206
Percutaneous discectomy
Arthroscopic discectomy. Letters, 639
Petroclival lesion
The far lateral/combined supra- and infratentorial approach. A human cadaveric prosection model for routes of access to the petroclival region and ventral brain stem, 60
Petrosectomy
The far lateral/combined supra- and infratentorial approach. A human cadaveric prosection model for routes of access to the petroclival region and ventral brain stem, 60
p53 gene
Malignant meningioma in Gorlin's syndrome: cytogenetic and p53 gene analysis. Case report, 466
Phorbol dibutyrate
The effects of papaverine on phorbol dibutyrate-induced vasoconstriction in brain slice microvessels, 574

Pituitary adenoma
Multiple dural metastases from a pituitary adenoma. Case report, 624
Treatment of invasive growth hormone pituitary adenomas with long-acting somatostatin analog SMS 201–995 before transsphenoidal surgery, 10
Plasminogen activator inhibitor
Plasminogen activator inhibitor-1 in the pathogenesis of delayed radiation damage in rat spinal cord *in vivo*, 381
Platelet-derived growth factor
Platelet-derived growth factor expression and stimulation in human meningiomas, 388
Pontine tumor
Benign pontine tumors. Letters, 335
Posterior fossa
Postoperative mutism in neurosurgery. Report of two cases, 115
Precocious puberty
Precocious puberty in a girl with an hCG-secreting suprasellar immature teratoma. Case report, 601
Primitive neuroectodermal tumor
Outcome for children with medulloblastoma treated with radiation and cisplatin, CCNU, and vincristine chemotherapy, 690
Progesterone receptor
Hormone receptors in initially excised versus recurrent intracranial meningiomas, 184
Quantitative imaging of estrogen and progesterone receptors, estrogen-regulated protein, and growth fraction immunocytochemical assays in 52 meningiomas. Correlation with clinical and morphological data, 765
Prognosis
Temporal profile of outcomes in severe head injury, 169
Protein kinase C
The effects of papaverine on phorbol dibutyrate-induced vasoconstriction in brain slice microvessels, 574
The identification of four protein kinase C isoforms in human glioblastoma cell lines: PKC alpha, gamma, epsilon, and zeta, 734
Protein tyrosine kinase
Effect of tyrphostin on cell growth and tyrosine kinase activity of epidermal growth factor receptor in human gliomas, 411

Radiation-induced neoplasm
Meningiomas: genetics, malignancy, and the role of radiation in induction and treatment. The Richard C. Schneider Lecture, 666
Radiation necrosis
Plasminogen activator inhibitor-1 in the pathogenesis of delayed radiation damage in rat spinal cord *in vivo*, 381
Radiation therapy
Progressive perturbations in cerebral energy metabolism after experimental whole-brain radiation in the therapeutic range, 774
Spinal cord tumors in children: long-term results of combined surgical and radiation treatment, 507
Radiosurgery
Clinical and radiological evaluation of long-term results of stereotactic proton beam radiosurgery in patients with cerebral arteriovenous malformations, 683
Radiotherapy
Outcome for children with medulloblastoma treated with radiation and cisplatin, CCNU, and vincristine chemotherapy, 690
Rathke's cleft cyst
Reversible visual deficit following debulking of a Rathke's cleft cyst: a tethered chiasm? Case report, 459
Rendu-Osler-Weber disease
Hereditary hemorrhagic telangiectasia (Rendu-Osler-Weber disease) presenting with polymicrobial brain abscess. Case report, 294
Reovirus type I
Stenosis of the central canal of the spinal cord following inoculation of suckling hamsters with reovirus type I, 103
Reperfusion
Cerebral damage caused by interrupted, repeated arterial occlusion versus uninterrupted occlusion in a focal ischemic model, 554
Rhizotomy
An experimental study of reflex variability in selective dorsal rhizotomy, 885
The validity of electrophysiological criteria used in selective functional posterior rhizotomy for treatment of spastic cerebral palsy, 354
RMP-7
Intracarotid infusion of RMP-7, a bradykinin analog: a method for selective drug delivery to brain tumors, 752

Sacrum
Sacral fixation using iliac instrumentation and a variable-angle screw device. Technical note, 313
Schwannoma
Neural sheath tumors of major nerves, 362
Sclerotome
The "filum intermedium" sign: focal *in utero* spinal cord infarct and an extraspinal thecal sac. Case report, 941
Seizure
Callosotomy without disconnection. Letters, 328
The role of hemispherectomy in the treatment of holohemispheric hemimegaloencephaly, 37
Shunt complication
Cerebrospinal fluid edema associated with shunt obstruction, 179
Shunt failure
Shunt failure without ventriculomegaly proclaimed by ophthalmic findings, 721
Sialorrhea
Sialorrhea from fourth ventricle hydrocephalus. Case report, 297
Skull
High cervical pain and impairment of skull mobility as the only symptoms of an occipital condyle fracture. Case report, 137
Skull-base surgery
Sympathetic pathways. Letters, 809
Skull defect
Cranioplasty with a Medpor porous polyethylene Flexblock implant. Technical note, 483
Smooth muscle
Effects of extravascular acidification and extravascular alkalinization on constriction and depolarization in rat cerebral arterioles *in vitro*, 437
Smooth-muscle cell
Hemoglobin augmentation of interleukin-1β-induced production of nitric oxide in smooth-muscle cells, 895
SMS 201–995
Treatment of invasive growth hormone pituitary adenomas with long-acting somatostatin analog SMS 201–995 before transsphenoidal surgery, 10
Solid graft
Vascularization and microvascular permeability in solid versus cell-suspension embryonic neural grafts, 272
Somatosensory evoked potentials
Intraoperative SEP monitoring in neurosurgery around the brain stem and cervical spinal cord: differential recording of subcortical components, 213
Spasticity
An experimental study of reflex variability in selective dorsal rhizotomy, 885
The validity of electrophysiological criteria used in selective functional posterior rhizotomy for treatment of spastic cerebral palsy, 354
Spinal cord neoplasm
Central neurocytomas of the cervical spinal cord. Report of two cases, 288
Posterolateral approach to intradural extramedullary thoracic tumors, 202
Spinal cord tumor
Spinal cord tumors in children: long-term results of combined surgical and radiation treatment, 507

Index

Spinal fusion
Fracture of a sublaminar stainless steel cable in the upper cervical spine with neurological injury, 932
Spinal stenosis
Outcome after laminectomy for lumbar spinal stenosis. Part I: Clinical correlations, 699
Outcome after laminectomy for lumbar spinal stenosis. Part II: Radiographic changes and clinical correlations, 707
Spine
Titanium dural clip testing, 947
Spine instability
Posterior plates in the management of cervical instability: long-term results in 44 patients, 341
Stereotactic proton beam therapy
Clinical and radiological evaluation of long-term results of stereotactic proton beam radiosurgery in patients with cerebral arteriovenous malformations, 683
Stereotactic surgery
Complications of CT-guided stereotactic biopsy of intra-axial brain lesions, 165
Stereotactically guided transfrontal removal of intraventricular midline tumors in children. Neurosurgical and neuropsychological considerations, 374
Stereotaxis
Frameless stereotaxy for surgery of the epilepsies: preliminary experience. Technical note, 629
Preliminary experience using an optimized three-point transformation algorithm for spatial registration of coordinate systems: a method of noninvasive localization using frame-based stereotactic guidance systems, 676
Subarachnoid hemorrhage
Doppler ultrasound prediction of ischemic deficit. Letters, 502
Glucose level and outcome after SAH. Letters, 961
Intramedullary hemorrhage of spinal cord hemangioblastoma. Report of two cases, 937
Seasonal fluctuation in the incidence of intracranial aneurysm rupture and its relationship to changing climatic conditions, 525
Subarachnoid hemorrhage and choir singing. Letter, 159
Subarachnoid space
Extracerebral fluid collections in infancy: role of magnetic resonance imaging in differentiation between subdural effusion and subarachnoid space enlargement, 20
Subdural effusion
Extracerebral fluid collections in infancy: role of magnetic resonance imaging in differentiation between subdural effusion and subarachnoid space enlargement, 20
Subdural empyema
Correction: cervical subdural empyema. Letter, 160
Subdural hematoma
Characterization of local hyperfibrinolysis in chronic subdural hematomas by SDS-PAGE and immunoblot, 910
Subependymoma
Subependymoma in siblings. Letters, 961
Superior sagittal sinus
Obstruction of the superior sagittal sinus caused by parasagittal meningiomas: the role of collateral venous pathways, 520
Supplementary motor area
Postoperative mutism in neurosurgery.
Report of two cases, 115
Supraorbital craniotomy
Supraorbital craniotomy. Letters, 641
Surgical approach. *see also* Operative technique *and* specific approaches
The far lateral/combined supra- and infratentorial approach.
A human cadaveric prosection model for routes of access to the petroclival region and ventral brain stem, 60
Posterolateral approach to intradural extramedullary thoracic tumors, 202
Surgical excision of meningiomas involving the clivus: preoperative and intraoperative features as predictors of postoperative functional deterioration, 860
Transcranial approach to the orbit: microsurgical anatomy, 78
Surgical technique
The use of clip-suture in thoracic sympathectomy. Technical note, 482
Sympathectomy
The use of clip-suture in thoracic sympathectomy. Technical note, 482
Sympathetic nerve
Sympathetic pathways. Letters, 809
Synaptophysin
Central neurocytomas of the cervical spinal cord. Report of two cases, 288
Synovial cyst
Hemorrhage into a lumbar synovial cyst causing an acute cauda equina syndrome. Case report, 449
Syringohydromyelia
Terminal syringohydromyelia and occult spinal dysraphism, 513
Syringomyelia
Chiari I and syringomyelia. Letters, 811
Communicating syringomyelia. Letters, 500

Tears
Titanium dural clip testing, 947
Telangiectasia
Hereditary hemorrhagic telangiectasia (Rendu-Osler-Weber disease) presenting with polymicrobial brain abscess. Case report, 294
Temporal lobe
Reoperation for recurrent temporal lobe epilepsy, 31
Tentorium
Management of tentorial dural arteriovenous malformations: transarterial embolization combined with stereotactic radiation or surgery, 851
Tethered spinal cord
Delayed postoperative tethering of the cervical spinal cord, 196
Thalamostriate artery
Thalamostriate artery aneurysm within the third ventricle. Case report, 463
Third ventricle
Surgical resection of third ventricle colloid cysts. Preliminary results comparing transcallosal microsurgery with endoscopy, 174
Thalamostriate artery aneurysm within the third ventricle. Case report, 463
Third ventricular xanthogranulomas clinically and radiologically mimicking colloid cysts. Report of two cases, 605
Thymidine kinase
The effect of thymidine kinase transduction and ganciclovir therapy on tumor vasculature and growth of 9L gliomas in rats, 256
Tissue inhibitor of metalloproteinases
Production of matrix metalloproteinases and tissue inhibitor of metalloproteinases-1 by human brain tumors, 69
Transcallosal approach
Surgical resection of third ventricle colloid cysts. Preliminary results comparing transcallosal microsurgery with endoscopy, 174
Transcondylar approach
Extreme lateral transcondylar approach: technical improvements and lessons learned, 49
Transethmoidal approach
Transethmoidal transsphenoidal approach for embolization of carotid-cavernous fistula. Case report, 921
Transsphenoidal approach
Transethmoidal transsphenoidal approach for embolization of carotid-cavernous fistula. Case report, 921
Transsphenoidal surgery
Treatment of invasive growth hormone pituitary adenomas with long-acting somatostatin analog SMS 201–995 before transsphenoidal surgery, 10
Traumatic brain injury
Influence of major depression on 1-year outcome in patients with traumatic brain injury, 726
Trigeminal nerve
Cranial granular-cell tumor of the trigeminal nerve. Case report, 795
Primary ependymoma of a cranial nerve. Case report, 792

Trigeminal neuralgia
Choristoma of the intracranial maxillary nerve in a child. Case report, 788
Microvascular decompression for trigeminal neuralgia caused by vertebrobasilar compression, 1
Trigeminal neuropathy
Bilateral trigeminal amyloidoma: an unusual case of trigeminal neuropathy with a review of the literature. Case report, 780
Tuberculoma
Cerebral tuberculosis with expansion into brainstem tuberculoma. Report of two cases, 927
Tuberculosis
Cerebral tuberculosis with expansion into brainstem tuberculoma. Report of two cases, 927
Tumor, *see also* specific tumors
Preirradiation methotrexate chemotherapy of primary central nervous system lymphoma: long-term outcome, 188
Tumor suppressor gene
Pathways leading to glioblastoma multiforme: a molecular analysis of genetic alterations in 65 astrocytic tumors, 427
Tumor vasculature
The effect of thymidine kinase transduction and ganciclovir therapy on tumor vasculature and growth of 9L gliomas in rats, 256
Tryphostin
Effect of tryphostin on cell growth and tyrosine kinase activity of epidermal growth factor receptor in human gliomas, 411

Ultrasound
Doppler and endoscopic stereotactic biopsy. Letters, 641
Prediction of tolerance to carotid artery occlusion using transcranial Doppler ultrasound, 15

Vascular bypass
Combined surgical and endovascular treatment of a giant vertebral artery aneurysm in a child. Case report, 304
Vascular malformation, *see* Arteriovenous malformation
Intracranial dural arteriovenous fistulae: angiographic predictors of intracranial hemorrhage and clinical outcome in nonsurgical patients, 531
Vasogenic cerebral edema
Vascular permeability factor in brain metastases: correlation with vasogenic brain edema and tumor angiogenesis, 560
Vasospasm
Cytotoxic effects of bloody cerebrospinal fluid on cerebral endothelial cells in culture, 87
The effects of papaverine on phorbol dibutyrate-induced vasoconstriction in brain slice microvessels, 574
Hemoglobin augmentation of interleukin-1β-induced production of nitric oxide in smooth-muscle cells, 895
The role of hemolysate in the facilitation of oxyhemoglobin-induced contraction in rabbit basilar arteries, 261
Venous angioma
Progression of multiple cryptic vascular malformations associated with anomalous venous drainage. Case report, 477
Venous hypertension
Progression of multiple cryptic vascular malformations associated with anomalous venous drainage. Case report, 477
Venous pathway
Obstruction of the superior sagittal sinus caused by parasagittal meningiomas: the role of collateral venous pathways, 520
Ventriculoperitoneal shunt
Effects of head elevation on intracranial hemodynamics in patients with ventriculoperitoneal shunts, 829
High-energy phosphate metabolism in a neonatal model of hydrocephalus before and after shunting, 544
Sequestered fourth ventricle. Letters, 962
Vertebral artery
Rotational vertebrobasilar insufficiency as a component of thoracic outlet syndrome resulting in transient blindness. Case report, 617
Vertebral decompression
Effects of vertebral axial decompression on intradiscal pressure, 350
Vessel
The effects of papaverine on phorbol dibutyrate-induced vasoconstriction in brain slice microvessel, 574
Vision
Shunt failure without ventriculomegaly proclaimed by ophthalmic findings, 721
Visual deficit
Reversible visual deficit following debulking of a Rathke's cleft cyst: a tethered chiasm? Case report, 459
von Hippel-Lindau disease
Intramedullary hemorrhage of spinal cord hemangioblastoma. Report of two cases, 937

Xanthogranuloma
Third ventricular xanthogranulomas clinically and radiologically mimicking colloid cysts. Report of two cases, 605
Xenon
Effect of stable xenon inhalation on intracranial pressure during measurement of cerebral blood flow in head injury, 822
